

Deck Title Here

One-line subtitle — the scope of the talk.

Key point one

- ▶ One-line bullet stating a fact.
- ▶ The **one token** that matters is magenta.
- ▶ Symbol references use `lock_get` form.

Key point two

- ▶ Second column, parallel structure.
- ▶ ≤ 4 bullets, each one rendered line.

Structure — drawn as SVG (not mermaid)

A **structure** (arrays, pointer chains, layouts) is a hand-authored SVG under `./assets/`. Reuse the theme palette + Pretendard.

`m_obj_hash_table` — bucket → LK_RES chain

the highlighted thing → **magenta**

Thank you
